

Officials Prepare for Promising Year; Faculty, Construction Work Expanded

With a promising September semester ahead, the faculty and administrative staff of the University of Utah are preparing for a busy year. The faculty, which has been expanded to 1,000 members, is preparing for a year of increased activity. The administrative staff, which has been expanded to 1,000 members, is preparing for a year of increased activity. The faculty, which has been expanded to 1,000 members, is preparing for a year of increased activity. The administrative staff, which has been expanded to 1,000 members, is preparing for a year of increased activity.

Living Accommodations Ample, Housing Office Assures Students

A strong housing program for the fall term is being developed by the Housing Office, which is assured of ample living accommodations for all students. The Housing Office, which is assured of ample living accommodations for all students, is preparing for a year of increased activity. The Housing Office, which is assured of ample living accommodations for all students, is preparing for a year of increased activity.

Owners Must Register
Autos on Campus

All student driven cars this fall will be required to be identified by either a parking permit or a registration sticker, whether or not the car is driven or parked on campus, according to Capt. Leonard Christensen, director of security.

Students who wish to obtain parking permits may do so at the Traffic and Security Office at a cost of \$5 per year.

Those who do not plan to park on the campus may also obtain a registration sticker for their car free of charge at the Traffic and Security Office.

Crowded Calendar

Activities Start with Conference, Orientation

Students will begin their fall semester with a busy schedule of activities. The fall semester will begin with a busy schedule of activities. The fall semester will begin with a busy schedule of activities. The fall semester will begin with a busy schedule of activities.

MONROE MCKAY
heads student leaders

SHOWPLACE—Dream of every BYU man is embodied in this artist's conception of the new housing project for 1170 male students

which will be started during the autumn quarter on a site north of campus. The plans call for five halls and central building.

HOME AWAY FROM HOME—Here is the architect's rendering of a typical living room which will grace each of the five new men's

residence halls. The multi-million-dollar project is expected to become one of the showplaces of Utah.

Family Living Center Progresses

Construction is still progressing on the new Joseph F. Smith Family Living Center at Brigham Young University, and the building will be occupied during the autumn quarter, according to Joyce W. Tippetts, director of campus planning and development.

The beautiful structure, which

will cost about \$2,000,000 when completely equipped for use, is located at the north end of the large quadrangle on upper campus.

It will be the first known structure in United States placing all university family and home science studies together. It will house the complete Col-

lege of Family Living with Departments of Clothing and Textiles, Economics and Management of the Home, Food and Nutrition, Homemaking Education, Housing and Design, Human Development and Family Relationships, the entire School of Nursing, and related departments such as Sociology and Psychology.

The building contains 93,000 square feet of floor space in its three stories and half basement, exceeding the new David O. McKay Building by about 50 percent in size and cost. It will measure about 400 by 104 feet at the widest points.

Facilities will include a half-basement which will house permanently the University and campus housing telephone switchboard. In addition to its many laboratories and classrooms, it will provide the most up-to-date outdoor laboratory for the nursery school and child observation.

It is constructed of golden-buff brick and pressed stone, matching the new academic buildings in the quadrangle. It differs, however, in the covered walk along the south face of the building which is lined with concrete columns.

The interior makes extensive use of tile and oak paneling, greatly resembling the interior of the David O. McKay Building. The west wing houses a multiple-purpose hall which can be divided into classrooms by use of folding doors or opened up into a meeting or entertainment room with hardwood floors, extensive oak paneling, and direct skylight illumination

Residences for 1170 Men Get Underway Soon

Good news for men students at Brigham Young University has come from President Ernest L. Wilkinson who announced approval of new residence halls to house 1170 men.

The multi-million-dollar project has been in the planning stage for many months and has been increased from the original provision for 800 men. Construction on a site north of the campus is expected to get under way during the autumn quarter and the buildings probably will be ready for occupancy during the year of 1957.

University officials predict the new residence halls will be one of the showplaces of Utah with its colorful, modern buildings and beautiful landscaping. The project will consist of six buildings, a central dining and common building and five residence

halls housing 234 men each.

Each of the three-story residence halls will have a head resident's apartment and a common living room. Individual rooms will have only two occupants and include a closet, built-in chests, two beds that can be used as sofas during the day, and two circular desks with filing cabinets, bookcases, typewriter stand and picture window.

All of the halls will be grouped around the one-story central building, which will house the dining hall where three meals a day will be served to 1170 men. Also in the central building will be a recreation room, snack bar, offices, living room, post office. It will lead to outdoor recreation areas and ample parking space. The living room and one dining room open on outdoor patios.

Eight New Heritage Halls Ready For Women Occupants in Fall

All eight of the new Heritage Halls residences for women at Brigham Young University will be in operation for the beginning of the autumn quarter, according to Fred A. Schwendiman, BYU housing director.

The new structures, which have been finished during the summer, are an addition to the 16 original Heritage Halls apartment buildings for women which were dedicated in May, 1954. The original project cost about \$3,000,000, and the eight new buildings about \$1,800,000.

Each of the new buildings houses 72 women in 12 apartments. Unlike the first Heritage Halls, each new building has a head resident apartment, music practice rooms, a sun-deck instead of a living room on the third floor and enlarged kitchen area. Kitchens feature eye-level ovens, modern refrigerators, added storage space and broom closets.

All apartments in the new

buildings are above ground. The older buildings have two basement apartments. Basements in the new buildings contain washing facilities, recreation room and practice rooms.

The entire project will house an additional 576 women students. The original 16 buildings house 860. The addition will help reduce the housing problem, but because of a regular increase in students each year, the rentals in the community will not be reduced.

Contractors for the new buildings were Christiansen Brothers of Salt Lake City, who also built the David O. McKay Building, Carl F. Eyring Physical Science Center, and who are now at work on the new Joseph F. Smith Family Living Center.

All appliances, fixtures, and furniture have been installed, and the lawns and landscaping are progressing well under the care of Physical Plant Department.

Cheaper than Most . . .

Fees Raised \$10 Per Quarter

An increase in fees of \$10 a quarter, announced last April by President Ernest L. Wilkinson, will go into effect with the autumn quarter.

The increase will raise total student cost for tuition and fees from \$180 to \$210 for the academic year.

Bishops Told Why
At an assembly for bishops and stake presidents held in connection with general conference, President Wilkinson explained it still costs slightly more than \$500 a year for education of every undergraduate at BYU. "During the present year each student by way of tuition pays only \$105 of this cost, while he pays an additional \$75 for student activity fees, including a building fee of \$30," he said. "Consequently, for every \$105

paid by the student, the Church out of tithes of members appropriates approximately \$395. This means in effect that each student at this institution receives a scholarship from tithing of \$290." He said that in this situation, the Board of Trustees decided recently on an increase of \$10 per quarter.

Below Average Fee
President Wilkinson said a recent study of 84 private colleges revealed average tuition at \$505 a year, and in some cases tuition exceeded \$1000 a year. As a comparison in Utah, he cited next year's fees at University of Utah of \$196 for residents and \$249 for non-residents, and at Utah State Agricultural College \$150 for residents and \$262 for non-residents of the state. "BYU studentbody is 54 percent non-resident."

Workers Delve in BYU Streets To Install Heating System

Extensive sections of campus roadway at Brigham Young University are torn up as work progresses on a one and a third million dollar conversion of the heating arrangement to a new high temperature hot water system.

However the streets will be intact before the students return about Sept. 20.

Kenneth Fryser Company of Pasadena is contractor for the work, which is expected to be completed by the summer of 1957. Conversion will be made from the high pressure steam heating system now in use.

Under the new system, water heated to 370 degrees F. will be sent from the heating plant to all buildings on campus where it then will be converted to low pressure steam. In the present system, steam is sent from the heating plant to the various buildings and is lost if building needs diminish.

High temperature hot water heating will be more economical to operate and is especially suit-

ed to the transmission of heat over long distances which the BYU campus demands, according to Leland M. Perry, superintendent of the Physical Plant Department, who is representing the University on the project. Money is saved through more even firing and the heat storage capacity which the large quantities of water offer.

Conversion will include remodeling and repairing of the heating plant and steam tunnels in addition to installation of two new boilers which will have capacities of 50 million BTU per hour each. No changes will need to be made in the heating system in the individual buildings, according to M. Perry.

During the transition, two regular boilers will be removed and three temporary boilers installed. The added boilers are necessary to meet the increased heating needs which will develop this winter through the completion of the Joseph F. Smith Family Living Center and six new Heritage Halls.

WON'T BE LONG—Work is nearing completion in this multi-purpose hall in the new Joseph F. Smith Family Living Center. Notice the beautiful oak paneling and skylight illumination being constructed.

Impresario Busy . . .
BYU Schedules One of Greatest Music Seasons

Philadelpia Group to Appear
The Philadelphia Group has been invited by the London Symphony Orchestra to appear at the Royal Albert Hall in London next week.

The group consists of the following members:
Violin: Joseph Szigeti
Viola: Samuel Dushkin
Cello: Emanuel Feuermann
Bass: Louis Krasner
Piano: Leonid Breznev
Conductor: Eugene Ormandy

The group was formed in 1938 and has since that time appeared in many of Europe's leading concert halls as well as in the United States. The group has also given recitals in London, New York, and other cities.

The group will appear in London on Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, and Sunday, at 7.30 p.m. each evening.

Tickets are available from the London Symphony Orchestra, 1, St. James's Place, London, W.1.

Brilliant Tenor Scheduled
Cesare Valletti, the Metropolitan Opera tenor, will give a rare and authentic Italian recital at the Royal Albert Hall on Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, and Sunday, at 7.30 p.m. each evening.

Valletti has been singing in the Metropolitan Opera since 1927. He has won many prizes and has been called "the greatest Italian tenor of his generation."

His repertoire includes such roles as Otello, Don Carlo, and Aida. He has also sung in many of the world's great operas.

Tickets are available from the Metropolitan Opera House, 1, St. James's Place, London, W.1.

BYU Series
The BYU series of piano events on the BYU series On Nov 26, the program will present a recital by the pianist and exciting prodigy of the American concerto, on Feb 13, this will be the first American concerto to be presented in the series. The series has been described in the most glowing superlatives in opera circles. It is the only series of its kind in the world. The series is being presented in London, Strasbourg, Munich, and other cities.

The series will be presented in the following order:
Nov 26 - Piano Recital by [Name]
Dec 13 - Piano Concerto by [Name]
Jan 13 - Piano Concerto by [Name]
Feb 13 - Piano Concerto by [Name]

Tickets are available from the BYU series, 1, St. James's Place, London, W.1.

Cougar Grid Prospects Brighten

Squad Blazes Glory Trail Over Europe

Leaving a trail of impressive victories and top performances behind them, members of BYU's track and field team recently wound up a six-week summer tour of Europe.

The 13-man track contingent, according to Coach Clarence Robinson, more than measured up to expectations in meeting "the best of Europe," although they lost their share of injuries later in the tour was over.

From one to from Europe in giant commercial airliners, the Cougars competed in Ireland, England, Germany, Finland, and France. They not only served as good will ambassadors for the U.S. but also promoted missionary causes for the Church in those areas. In both purposes the BYU athletes were declared successful.

As was expected, Coach Robinson's boys excelled in certain events but had to give ground in others when the Europeans seem to specialize. The Bruins are no mediocres, particularly strong in the sprints and some of the field events, while the European hosts carried a different edge in the distance events.

As guests on foreign soil, the BYU team had to conform to the local practices of the Europeans. Instead of figuring the track events in yards, the metric system was used. Consequently the sprinters found themselves running approximately 110 yds. (100-meters), in place of the 100-yard dash, etc.

All events, including the sprints, were run on the grass in Dublin, says Coach Robinson. "And the track there was not all circular. What and where we had to contend with in several of the meets, prevented our boys from turning in their best performances."

Newspapers in Dublin covering the Y's first two meets rated the Cougars the best university squad ever to visit the Emerald Isle.

Accompanying Coach Robinson, his wife, and Trainer Rod Kimball were the following track and field men: Harry Anderson and Dick Heywood (sprints); Jim Crittenden and Arlyn Finlinson (440); Oscar Anderson (880 and mile); Sherod James (mile, two-mile), Sheldon Jackson (brood jump), Ralph Bonham (shot put), Lewis Chatterly (pole vault), Hal Werner and Charles Higgins (javelin), and Willard Hurdles (hurdles).

Activity Cards Available For Season's First Game

Special arrangements are being made so students who wish to see the Fresno State football game at BYU two days prior to registration will be able to do so without purchasing regular tickets.

The Cougar-Bulldog contest is scheduled for 8 p.m. the night of Sept. 22, while registration is set for Sept. 24.

University officials said the Treasurer's Office will be open daily Sept. 19-22 to accommodate students who wish to pay their fees in advance. These students will be able to obtain their activity cards which will be honored at the gate the night of the game.

The Treasurer's Office will remain open until 6 p.m. the night of the 22nd, officials said.

NEW CREW—With this quintet of new mentors at the helm, Brigham Young University football fortunes promise to improve steadily in the next several seasons. They are Harold W. Kopp, center, head coach, formerly of Rhode Island University; left, Tally Stevens, end coach, formerly East High School coach, and Allan Davis, backfield coach, formerly of Murray High School; right, Max Tolbert, freshman coach, also from Murray, and Owen Dixon, holdover line coach.

Top Flight '56-'57 Basketball Schedule Promises Cougar Fans Big Season

Students faculty and the basketball faithful at Cougarville have come to expect big things in BYU basketball even before the season rolls around, and this year is no exception.

Cougar Stan Watts and his boys will face another top flight schedule in 1956-'57, including three games between Christmas and New Years in the Holiday Festival in New York City. In all the Cats will play 36 games.

The preseason schedule will feature Oregon State, Washington and Bowling Green on the home court, while the Y will tackle Iowa State, Michigan State, UCLA, and Holiday Festival competition on the road.

Skyline competition will begin Jan. 4 at Provo against Montana with the six other conference opponents clashing in the

home-and-home schedule. Sandwiched in the middle of the conference fracas will be game with St. Mary's University at Provo.

Graduation Took Toll

True, the Cougars will be without the services of players like Terry Tebb, Herschel "Soup" Pedersen, Ed Pinegar, and several other team members who graduated last spring. But the fans have seen leaner years when Stan stayed up front in the Skyline race.

Returning lettermen and players include Tom Steinke and Harry Anderson at guard; Lynn Rowe, John Benson, and Hal Jensen at forward; and Jack Anderson at center, to mention only a few. Coming up from the frosh ranks will be Roy Thresher (6-5) and Keith Pedersen (6-6). Jack Crawns, John Gustin, and Gary Miles at forward; and several guard prospects. Returning missionaries and transfers will also be numbered among the athletes vying for a spot on the squad.

Last year the Cougars finished the Skyline race in second place with a 10-4 record, two of the losses coming at the hands of the top holding Utes. The overall record for the season was 8-8.

An indication that basketball is here to stay is noted in the 1955 home attendance figures at Brigham Young. A total of 116,163 fans saw the Cougars play 14 home games, or an average of 8,296 fans a game.

The George Albert Smith Fieldhouse is also the scene of the playoffs for the All-Church Basketball Tournament and the Class "B" High School Tournament.

The schedule is as follows:

Nov. 20	Oregon State	at Provo
Dec. 1	Utah of Washington	at Provo
Dec. 2	Utah State	at Provo
Dec. 3	Michigan State at East Lansing	at Provo
Dec. 10	UCLA at Los Angeles	at Provo
Dec. 11	Bowling Green	at Provo
Dec. 12	Colorado State at Ft. Collins	at Provo
Dec. 13	Utah State University at Provo	at Provo
Dec. 14	Utah State College at Provo	at Provo
